Social situations are among the most important in our lives, especially if we are developing new contacts, building relationships or posturing for leadership positions, where Taking Command, whether forcefully or with great subtlety, is crucial and time sensitive.

The command line arguments are handled using main() function arguments where argc refers to the number of arguments passed, and argv[] is a pointer array which points to each argument passed to the program. Following is a simple example which checks if there is any argument supplied from the command line and take action accordingly –
TAKING COMMAND is a sequel to the author's story in NAKED TIMES #14. In this universe, Vulcan reins over Earth yet with a gentle and understanding hand. Vulcan also realizes that their own people do not function well in command situations so they place only bonded Vulcan/Human pairs in the top command positions on their starships.
